May 21, 2019

Dear Country Club Road and Pembroke Drive Resident,

The City will be commencing road and infrastructure improvements on Country Club Road. Construction will start at Vaughan Road and continue up the hill toward Pembroke Drive ending just past the northern property line to 1040 Country Club. The work will include water main infrastructure improvements and a curb and gutter system to solve a long-standing and serious road and driveway erosion problem.

Work is scheduled to begin June 3, 2019 and will be completed later this summer. We plan to keep road access open to residents but will restrict other local traffic. Please make your plans accordingly.

At this time, no other road improvements are scheduled for Country Club Road or Pembroke Drive. Any further paving or road improvements would have to follow the Special Assessment District (S.A.D) procedure with project approval from the City Commission.

The City is committed to continued communication with affected residents by providing weekly updates via our confidential email and text notification process. Please send your name, street address, email address and cell phone number to City Clerk Amy Burton at aburton@bloomfieldhillsmi.net to be added to the notification system for construction updates.

If you have inquiries specific to the project, please contact the Project Engineer, Lia Michaels at (248) 454-6812.

Thank you for your patience and understanding during this road and infrastructure improvement project.

Sincerely,

Dave Hendrickson
City Manager
