

July 5, 2019

Dear Country Club Drive Residents:

Installation of concrete curb and gutter on Country Club as part of the Water Main Replacement and Road Reconstruction by the City of Bloomfield Hills, is scheduled for the week of July 8th, weather permitting.

Starting Tuesday, the Contractor will be pouring curb along Country Club and through the driveways. Residents will not be able to drive over the curb into and out of their driveways for 7 days. Please park any vehicles you want access to during that time along Country Club or Pembroke, outside the limits of construction. Once the Contractor has completed their work in front of your home, you can move/park your vehicles on the northbound side of the street in front of your home. This will allow residents to have their vehicles close to their homes while still allowing one lane of traffic along Country Club.

If you have any medical issues that will not allow you to walk over the curb, please contact one of the HRC Representatives at the information listed below.

We will do our best to notify you when construction is progressing towards your property but cannot reach everyone, so if you have an important appointment, it is recommended that you coordinate with the City's field representative. We appreciate your patience during this important stage in construction.

The City's Contractors for the project are Cadillac Asphalt, Sole Construction and D'Angelo Construction. The City's engineering consultant, Hubbell, Roth & Clark, Inc. will have a representative onsite throughout the duration of the project. If you have any questions or concerns, please contact the following:

HRC Representatives:

Dave David (Onsite Rep) 248.535.3399

Lia Michaels (Project Engineer) 586.634.6211

Weekly emails are issued to notify residents where work will occur on the project. If you would like to be added to this confidential email list, please contact Bloomfield Hills City Clerk, Amy Burton at [aburton@bloomfieldhillsmi.net](mailto:aburton@bloomfieldhillsmi.net).
