

July 12, 2019

Dear Country Club Drive Residents:

We understand this week may have been disruptive to your normal routines while the concrete curbs were installed. Thank you for your continued cooperation.

You will see construction activity start up again as the contractor returns to grade the road in preparation for the paving work to begin early next week. As always, this work is dependent on the weather.

Informational flyers will be delivered to your home and we will continue to send email updates on paving, parking and driveway access.

Please contact the project representatives if you have any questions.

Onsite Field Representative Dave David (248) 535-3399

Project Engineer Lia Michaels (586) 634 6211
