

July 17, 2019

Dear Country Club Drive Residents:

With the road now open, we encourage special care if you choose to access your driveway before Friday. Due to the risk of damage to vehicles and the new curb, it is not recommended the driveways be used prior to the final driveway paving work.

The contractor is scheduled to pave driveways this Friday, July 19th. If you have vehicles that you need access to on Friday, please park outside of the construction area of Country Club by 7:00 a.m. on Friday morning. This will allow for the construction equipment to work on the driveway paving and to ensure you have access to your vehicles during this time. Driveways can be accessed for vehicle traffic 24 hours after the paving work is done. If everything goes as scheduled, it is anticipated you will have driveway access on Saturday morning.

We appreciate your support during the construction.

Onsite Field Representative Dave David (248) 535-3399  
Project Engineer Lia Michaels (586) 634-6211
