

September 25, 2019

Residents:

Crews will be paving Bennington Drive on Thursday, September 26th. Given the nature of the work, access in and out of your property may be restricted while the paving is done in front of your home. We will do our best to make accommodations to limit the disruption to your schedule.

There will be a City representative onsite at all times to help residents with construction related issues and answer any questions. If you need assistance, please contact DPW Foreman Jamie Spivy at (810) 656-7531.

Thank you for your continued patience and cooperation.
